

ENFORCER

The 4.8 Enforcer the smallest member of our Plate range is a Side Console, with open 25 inch transom, keeping you well above the water line and well suited to many applications. Classed as a real all-rounder, giving a soft ride in choppy water conditions, and suited to estuary fishing, crabbing, prawning, and if the weather is favourable a short trip to the reef is not out of the question. Boosting a large deck and platform area there is loads of room for all fishing and boating needs, with room behind the console specially designed to fit your regular round collapsible crab pots.
