**SEA JAY**

**ALUMINIUM BOATS**

## INTRODUCING WHO WE ARE

Sea Jay Aluminium Boats is a family company owned by Col and Janelle Glass, established in Bundaberg in 1989. Boating has played a major part in the family life over many years, having been involved in boating from a young age as recreational fishermen, water skiers and boat racing, hence the involvement in the boating industry. With premises covering 7,000m<sup>2</sup> and with 2,280m<sup>2</sup> under cover this provides easy movement for product and supplies.

## OUR COMMITMENT

Sea Jay bring their product to you with their personal pride and trust you will enjoy many memorable moments on some of the best waterways this country offers. What a better way to relax by **"GETTING AMONGST IT"** in a quality **Sea Jay Aluminium Boat** you can rely on and trust.

## THE SEA JAY ADVANTAGE

- Wide side decks are fully welded
- Plywood sealed prior to fitting carpet
- Unpainted boat floors sprayed with a clear metal sealer
- Individually hand fitted flooring
- 3mm and 4mm material bottoms are stitched welded internally on the keel and chine for extra strength
- Skilled employees to design, develop and manufacture our product

Edition 10 - Dated 18th February, 2010

## WHEN BUYING A BOAT

If you have been involved in boating for many years you will be familiar with the aspects of boating, however if this is your first boat we would like to assist you with some boating key points. Your authorised Sea Jay Dealer will be able to suggest the model you require by considering the following aspects.

The model you require will depend on your type of boating activity and the conditions of the waterways you use. Models can vary in performance so you would need to consider the waterways you will use most frequently. From our lakes and rivers to offshore the various boat models available enable you to make this decision.

Your engine requirements will also play an important part in your boat model choice. You will need to consider the size and type of engine that fit your requirements. The boat model specifications show the recommended and maximum hp and motor weight applicable. The boat hull performance can be spoilt by an incorrectly fitted or trimmed engine. Therefore if you are new to boating and had little experience with outboard engines, your dealer will guide you with the correct engine transom position and explain about motor trimming if your engine has this option.

The loading of your boat hull is important when wanting the best ride. If you intend to carry a big load, the model size and engine hp need to be a factor, together with the position the load is carried in the boat. If these factors are considered your boat will move "on to the plane" with ease.

An incorrect trailer set up can damage your craft, so it is important when deciding on a trailer, to consider the distance you will be travelling, the launching variations and the type of road surface you will use. As with your boat, trailer options can vary so there is a trailer model to suit your needs.

Learn all there is to know about boating safety through your Transport Department Safety Hand Book and play safe on our waterways.

### ABOUT THE SEA JAY RANGE

- High sides and wide beam
- Maximum performance
- Stability
- Various options
- Quality fittings
- Specialty models for all entry levels
- Over 70 pressed models from 2.45m to 6.1m, with models available for all boating enthusiasts
- Models available for the commercial sector

### QUALITY & WORKMANSHIP

- Quality and pride in workmanship is an important aspect of the manufacturing process.
- Sea Jay ensures employees build their product with the pride of workmanship they would expect in a boat of their own. This motto is carried through the entire manufacturing process.
- Sea Jay employees receive on the job training by qualified personal.
- A quality checking system is in place to check material and product at each stage throughout the manufacturing process. All attempts are made to provide a quality product to enter the market place.

# SURE TRAC HULLS

## SURE TRAC REVERSE CHINE HULL

Overall performance will be gained by choosing a SURE TRAC hull, as the reverse chine will give stability at rest and when underway the deeper V will provide a smooth ride. When the boat rides on the deeper V and with the lift given by the reverse chine this will give good fuel efficiency with minimum power. The Sure Trac design is standard on most hulls 4.55 and over, both open transoms and the Ultimate Transoms. The Reverse Chine method was first used in a Sea Jay hull in the early 1990's with the design now prominent in more Sea Jay models.

- **STABILITY AT REST**
- **DEEPER V FOR A SOFTER RIDE**
- **PUSHES EASIER WITH MINIMUM POWER**
- **BETTER LIFT GIVING GOOD FUEL EFFICIENCY**

## RESEARCH & DEVELOPMENT

- Ongoing model development
- Model development focuses on maximum performance with minimum fuel energy
- Through on going hull development, whether a 2 or 4 stroke engine our design will enhance the performance of your outboard.

**WHY SEA JAY**

**WE TEST HARD SO YOU PLAY SAFE!**

## PLATE EXTREME PLATE MODELS

# PLATE EXTREME

### PLATE EXTREME MODELS

Being full plate construction, the structural strength of these models is second to none, a solid but very stable hull that plains easily together with reverse chine for a soft ride.

## VIPER MODELS

Here's one for the tournament angler, the new Sea Jay 4.65 Nomad Viper. The 4.65 VIPER is designed exclusively for the tournament angler or the passionate fisherman, with its sleek lines and attention to detail, the VIPER is an impressive addition to the Sea Jay range. A large deck height casting area with handy storage hatches, live well, bait tank, under floor fuel, stylish console and screen and a full transom with boarding platform are just a few of the standard features offered in this model.

4.65m

## 5.0 QUICKSTRIKE

Striking A blow in the Sports Fishing Market is the new high performance, incredibly fishable QuickStrike. On inspection of the Sea Jay QuickStrike, serious anglers will identify the superior qualities of its design, durable construction and first class finish.

Excellent handling, rough water comfort and top end performance is delivered to you by its Platinum Series, Sure Trac Hull. Rated to 115hp, it has an exceptional hole shot, planning easily and efficiently.

The QuickStrike reveals Sea Jay's "Intra Pod" - Integrated Pod Construction. Not only is the integrity of the pod superior and more aesthetically pleasing, but it also incorporates a larger boarding area which may be utilized as additional fishing space.

Also appearing is the unique fold up bench seating for three perfectly placing the driver in alignment of its T.C.S - "Total Control Station", further enhancing the sports fishing appeal of this sleek hull.

Huge decks and superior performance makes it a sports fishing standout; from first light to weigh-in, the QuickStrike will have you ahead of the competition.

## VENTURE CAB MODELS

Looking for a spacious cabin for offshore, then the Venture Cab is the one to choose. An ideal family craft providing hours of boating pleasure with a spacious cab to shelter those onboard from the elements. To add comfort in the cab, the optional bunk cushions can be added. A folding rear lounge is also an option if you require additional seating. This model is standard with an Ultimate Edge transom and Sure Trac hull which will provide greater stability and all round performance. A 4mm aluminium bottom incorporates a reverse chine and compatible transom allowing this craft to perform extremely well. Your ride is second to none as you head to your favourite patch of reef.

## WARRANTY

C & J Glass Holdings Pty Ltd A.C.N. 106 576 229

This document states terms of the Warranty given by the Company in respect of products manufactured by it.

### 1. Interpretation

In this document:-

- 1.1 "The Company" means C & J Glass Holdings Pty Ltd A.C.N. 106 576 229.
- 1.2 "The Purchaser" means the original person or entity of any boat sold through an authorised SeaJay Boats Dealership.
- 1.3 "Boat" means any aluminium boat or accessory manufactured by the Company.
- 1.4 "Warranty Period" means the period of two years (24 months) from the date of delivery to the **ORIGINAL** purchaser.

### 2. Warranty

2.1 The Company warrants to the Purchaser that:-

- 2.1.1 The quality of the materials used in the construction of the boat is in accordance with or above, the standard usual in the aluminium boat building industry; and
- 2.1.2 The boat will remain free of defects during the warranty period.

### 3. Works under Warranty

- 3.1 To obtain the benefit of the warranty the Purchaser must return the boat to its place of purchase.
- 3.2 Warranty does not cover any consequential expenses beyond the warranty repair itself. Eg. Freight
- 3.3 SeaJay Boats shall not be liable for consequential loss of any kind arising out of the supply or operation of the Boat.

### 4. Exclusions

- 4.1 The warranty will not cover any defect or damage caused by:-
  - 4.1.1 Alterations to the boat or its operation outside design limitations
  - 4.1.2 Misuse, abuse or negligence
  - 4.1.3 Normal Wear and Tear
  - 4.1.4 Use of a motor which has more power or weight than recommended on the compliance plate attached to the Boat.
  - 4.15 Improper Trailer fitup. Eg. Incorrect tie down of Boat to Trailer, the use of multi roller Trailers, no Engine support bracket and off road use.
- 4.2 Paint is not warranted against the effects of oxidization, wear and tear, electrolysis or damage caused by fuel and dissimilar metals. This also includes normal oxidization around unsealed edges and fittings.
- 4.3 Carpet, Timber Floors, Upholstery and Windscreens (including console screens) are limited to a 12 month warranty only.

### 5. Commercial Use

- 5.1 Due to the variance in usage and conditions which may be experienced, the Purchaser must be satisfied the intended Boat is suited for commercial applications.
- 5.2 This Warranty does not cover any boat which has been used for a commercial purpose.

### 6. Exclusion of Further Warranties

- 6.1 Except as stated in this document no warranty, express or implied is given by the Company except any warranty which is implied by law.

#### GENERAL MAINTENANCE

It is important to follow a few basic rules in providing regular maintenance to your new vessel.

- Always thoroughly wash your entire vessel with fresh water and mild detergent after use.
- A spray of a protective lanolin based product should be re-applied after washing, to all areas where dissimilar metals are fitted. eg. Any Stainless Steel fittings (Windscreen Bolts, Rod Holders, Baitboard etc.)
- If an accessory is fitted after market (not factory fitted) it is important to spray a protective lanolin based product to these areas where salt or moisture can be attracted.
- Leave your vessel permanently tilted to drain after use.
- Floatation material can be affected by petrol. Check periodically.

#### DISCLAIMER

As Sea Jay continues to make improvements to our product, we do reserve the right to change any details that are contained herein.

All specifications quoted in this brochure are approximate and subject to change.

Please note that photos may show accessories or options that are not standard, please check the features for the standard options applicable.

For further information on the Sea Jay Model range please contact your authorised Dealer as Sea Jay Aluminium Boats do not sell our product direct from the factory.
