SEA JAY

ALUMINIUM BOATS

Edition 6

discover new horizons

OUR COMMITMENT

We bring our product to you with our personal pride and trust you will enjoy many memorable moments on some of the best waterways our country offers.

What a better way to relax by
"GETTING AMONGST IT"
 in a Quality "Sea Jay"
 Aluminium Boat you
 can rely on and
 trust.

Sea Jay Aluminium Boats is a family company owned by Col and Janelle Glass, established in our home town of Bundaberg in 1989.

Having been involved in boating from a young age as recreational fishermen, water skiers and boat racing, boating has certainly played a major part in our lives, hence our involvement in the boating industry.

With our premises covering 4700 square metres and with 2280 square metres under cover this provides us with easy movement for product and supplies.

SEA JAY QUALITY & WORKMANSHIP

Particular attention is given to each and every "Sea Jay" model produced with quality and pride of workmanship being an important aspect of the manufacturing procedure.

Our factory staff comprises of qualified tradesmen and trades assistants. We have a training program in place where our apprentices and trainees receive qualified training by recognized training organizations who provide on the job training that targets all areas required in the field of boat building.

A quality checking system is in place to check material and product at each stage throughout the manufacturing process. Every attempt is made to provide a quality product to enter the market place. We guide our employees to build our product with the pride of workmanship they would expect in a boat of their own. This motto is carried through the entire manufacturing process.

SEA JAY ADVANTAGE

- Wide side decks are fully welded
- Top quality paint finish by highly qualified automotive painter with 40 years experience – as much paint below the floor as above
- Unpainted boats are sprayed with clear metal sealer under floors
- Top quality Australian plywood used
- Carpeted flooring is fully resin coated
- Full and part floors are individually fitted by hand
- Through on going hull development, whether a 2 or 4 stroke engine our design will enhance the performance of your outboard
- 3mm and 4mm material bottoms are stitched welded internally on the keel and chine for extra strength
- On going research and development

NEW IMAGE

TRANSOM

Our "New Image" Transom is suited to our 4.55m models and over and is designed to give maximum cockpit area, allowing for more usable boat space with easy access to the engine.

Being a full transom not an add on, it is designed as part of the hull to give impressive lines.

The Overall Boat Length is measured from the Transom to the Bow and does not include the boarding steps and bow sprit.

Our "New Image" Transom gives your boat excellent buoyancy and is suitable for both 2 and 4 stroke engines.

OUR RANGE

The "Sea Jay" range features high sides and wide beams which provide excellent performance, stability and safety for the boat owner.

Our company prides itself on meeting our customer's individual needs by producing a wide range of models, together with various optional accessories and fittings available.

The Sea Jay Range comprises of Open Standard Dinghies, V-Nose Punts, Console, Runabouts and Cabins. Also available in the Open Dinghy and V-Nose Punt range, are specific models with their own individual features. The Sea Jay models range in lengths from 2.45m for small open models to 5.65m for Console, Runabouts and Cabins models.

Sea Jay also build vessels to survey requirements by following strict guidelines and testings, these models are required by government departments and private commercial operators.

When Buying A Boat:

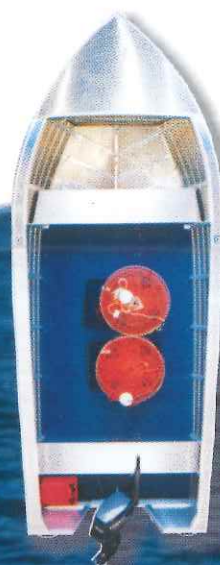

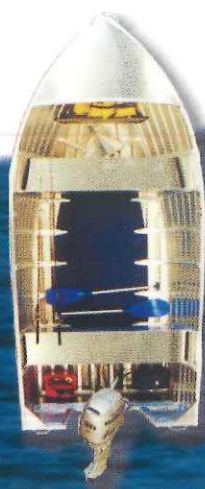

If you have been involved in boating for many years you will be familiar with the aspects of boating, however if

this is your first boat we would like to assist you with some boating key points. Your authorized Sea Jay Dealer will be able to suggest the model you require by considering the following aspects.

The Model you require will depend on your type of boating activity and the conditions of the waterways in your area.

Hull Models can vary in performance so you would need to consider the waterways you will use most frequently. From our lakes and rivers to off-shore the various boat models available enable you to make this decision.

The "Reverse Chine" is used on our 5.35m and 5.65 Runabout, Centre Console and Venture Cab models.

A 4mm Plate Bottom including Reverse Chine and welded stakes gives maximum strength and performance.

A "Reverse Chine" allows us to run with a deeper V boat, giving excellent performance while travelling and stability at rest.

We have used the "Reverse Chine" method on our larger models since 1990 and have now introduced it on our 5.35m and 5.65m models as above. This design therefore giving ultimate hull performance.

Your engine requirements will also play an important part in your boat model choice. You will need to consider the size and type of engine to fit your requirements. The boat model specifications show the maximum hp and motor weight applicable.

The boat hull performance can be spoilt by an incorrectly fitted or trimmed engine. Therefore if you are new to boating and had little experience with outboard engines, your dealer will guide you with the correct engine transom position and explain about motor trimming if your engine has this option.

The loading of your boat hull is important when wanting the best ride. If you intend to carry a big load, the model size and

REVERSE CHINE

engine hp need to be a factor, together with the position the load is carried in the boat. If these factors are considered your boat will move "on to the plane" with ease.

An incorrect trailer set up can damage your craft, so it is important when deciding on a trailer, to consider the distance you will be travelling, the launching variations and the type of road surface you will use. As with your boat, trailer options can vary so there is a trailer models to suit your needs.

Learn all there is to know about boating safety through your Transport Department Safety Hand Book and play safe on our waterways.

4.15m SP

Our SP range of boats are unpainted and available in three sizes each comprising of full carpet floors and swivels seats giving a little more comfort. These models provide an affordable alternative with each model carrying the dinghy features of high sides and wide beams.

CASTAWAY

Our Castaway model features a "Set Down Foredeck" this front deck is designed as a sorting area for small bait fish etc or may be used as a stable platform. It's use can be varied depending on your fishing needs.

The other features of this model needs to be discovered by referring to model features contained within. Our hull used for this model is our Magnum Hull, which is an ideal vessel for estuary and bay conditions.

SEEKER

Our Runabout range is ideal for families or friends to enjoy their boating venture. With comfort being a major feature, our Runabouts are available in three models each with individual features to cater for all markets. Our Seeker is our starting model with features to make boating more appealing than a standard Dinghy. The Runabout Classic includes features that are second to none and our Runabout Capri is the elite of the range with a walk through dash & screen being the main feature.

DRIFTER

Our consoles are well appointed with plenty of cockpit fishing room ensuring pleasurable boating. We have two models available in our console range with our Drifter model fitted with pedestal seating to set it apart from the standard console layout. The Centre Console Haven models features give you a well laid out fishing area with room to move.

Explore New Horizons with the "Wanderer". Whether it be cruising the waterways or casting a line, this model will be popular with boating families. The bunk cushions are standard with this model, however they may be removed and a mid section added to form a carpeted platform for fishing. A rear lounge is fitted standard to provide adequate seating for all the family or may be folded away to provide a spacious cockpit. The 5.05m and 5.35m Bowrider style model will provide you with many hours of fun in the sun.

Looking for a spacious cabin and room to move? Our Venture Cab model is the one to choose. An ideal family cab, this hull will provide you with hours of boating fun and with a high cab, will provide you with shelter from the elements. With bunk cushions to give full cabin comfort and a folding rear lounge to provide you with that additional seating or folded away to give more space, this range of cuddy cabins should meet your needs.

The 5.05m Venture Cab is well suited for inshore conditions and providing stability and all round performance.

Our 5.35 & 5.65m Venture Cabs are regarded as a true offshore hull. With a 4mm plate bottom and reverse chine, this hull rides and performs extremely well. Your ride is second to none as you head to your favourite patch of reef.

WARRANTY

Sea Jay Aluminium Boats Pty Ltd A.C.N. 051 229 255

This document states terms of the Warranty given by the Company in respect of products manufactured by it.

1. Interpretation

In this document:-

1.1 "the Company" means Sea Jay Aluminium Boats Pty Ltd A.C.N. 051 229 255;

1.2 "the Customer" means the original Buyer of any boat manufactured by the Company (whether bought through an authorised dealer or otherwise);

1.3 "Boat" means any aluminium boat or accessory which is manufactured by the Company.

2. Warranty

2.1 The Company warrants to the Customer that:-

2.1.1 the quality of the materials used in the construction of the boat are in accordance with, or above, the standard usual in the aluminium boat building industry; and

2.1.2 the boat will remain free of defects for a period of two years from the date of delivery to the Customer ("the warranty")

3. Commercial Use

3.1 Due to the variance in usage and conditions which may be experienced in commercial applications a Customer intending to purchase the Boat for a commercial purpose must satisfy himself/herself that the Boat is suitable for the intended purpose.

3.2 This Warranty does not cover any boat which has been used for a commercial purpose.

4. Works under Warranty

4.1 To obtain the benefit of the warranty the Customer must deliver the Boat to the Company's factory at 2 Maddison Court, Bundaberg at the Customer's cost and risk

5. Exclusions

5.1 The warranty will not cover any defect or damage caused by:-

5.1.1 misuse, abuse or negligence; or

5.1.2 use of a motor which has more power than is recommended on the specification plate attached to the Boat.

6. Exclusion of Further Warranties

6.1 Except as stated in this document no warranty, express or implied, is given by the Company except any warranty which is implied by law.

www.seajayboats.com.au

As Sea Jay continues to make improvements to our product, we do reserve the right to change any details that are contained herein. All specifications quoted in this brochure are approximate and subject to change.

Please note that photos may show accessories/options that are not standard, please check the features for the standard options applicable. For further information on the Sea Jay Model range please contact your authorized Dealer as Sea Jay Aluminium Boats do not sell our product direct from the factory.
